Go from post to post.
Red line represents run. Run in two different directions away from transformer.

Each post

- 1) Light
- 1) 5ft. wire harness to go down post
- 1) 2Way splitter **except for last post in run**
- 1) 9ft. harness to go to next post

Totals:

- 7) lights
- 7) 5ft. wire harness to go down post
- 5) 2Way splitter
- 7) 9ft. harness to go to next post

When running the lines like this you don't need the two way splitter on the post farthest away from the power supply.
